- Different strategies and good practices to reduce early school leaving in the countries of the Danube region – Presentation by Csilla Fuszek, Director of the Matehetsy European Talent Center

Closing remarks (The morning session will be translated into English)

Standing reception

TESLA workshop series I. (13:00 – 15:30)

Following the joint plenary opening session, participants are invited to select one

1. Specialized Support for Disadvantaged Students: Identifying students at risk of dropping out and integrating them into development programmes.

2. Career Guidance for Groups: At Risk of Dropping out: providing tailored career counselling to students at risk of dropping out.

3. Formulating Individual Development Plans: Crafting personalized growth strategies for student advancement.

4. Mechanisms of Peer Interaction and Role Model Identification: Exploring peer dynamics and the importance of role models in student development. **"Talent, Inspiration, Responsibility"** (this workshop will be conducted in English language).

5. Digital Strategies and Tools in Public Education: Examining the implementation of digital technologies within the public education sector.

The programme will conclude with a technical summary, followed by a networking coffee event.

The event will be organised as part of the TESLA project (DRP0401527), an Interreg Danube Region Programme project co-funded by the European Union and the Hungarian Government, as well as the National Talent Programme.
